

class term theme suggestions

Each of our sessions is themed, it gives variety to our classes, the parents love it and it means that we are able to repeat some led play activities but use different pieces of equipment e.g. we can do tracking activities with different finger puppets depending on our theme. It is a really lovely part of running the classes our team take a huge amount of pride in laying out the play spaces for our customers to enjoy.

Themes from our term that our parents love

- pirate week
- sailor week
- under the sea
- black, white and red (visual activity week)
- superhero week
- cowboy week
- book week
- rainbow week
- space week
- GLOW - our gentle light class

We try and select themes where equipment can be used more than once, for example our red toys from black, white and red week gets used in pirate week and in superhero where our class focuses on red, yellow and blue themed toys. Our light toys get used in GLOW and in space week. We adapt our themes all the time depending on our resources and event that are coming up, our sports day class will be given an olympic theme this year
